Hi Nick,
Nice to speak with you earlier today. And I look forward to meeting you at the Innovate DTLA event.

Following up, attached as a Word document is an edit of your response to Simon's piece. I have gone quite light, focusing mainly on streamlining and making things fit Downtown News style and voice. Biggest insertion may be the addition of a line in the 4th graph about 'we could achieve positive gains for the community but still head off the effects that would lead to the end of the development cycle.' I think this fits with what you intend, but I don't want to twist your thinking.

Please take a look when you have a moment and let me know if you want to make any changes. My goal is to get this in the paper that hits stands next Monday, June 6.

Also, I have used the byline of Nicholas Griffin, and have your ID text at the bottom of the story. Please let me know if this also works for you

Thanks again for the thoughtful response. I look forward to sharing it with our readers,
Jon
